Data Hack 2022 Judges Scoring Rubric: Group #:		
Judging Criteria	**Points Possible**	**Points Earned**
Presentation Acumen: • Volume: Speakers are clear and speak in a volume such that they can be heard • Language: Language is professional and avoids slang. • Engagement: Presenters engage the audience and keep presentation lively. • Movement: Presenters do not stand still and frozen. • Group Involvement: Each group member speaks.	**5**	
Motivation: • Presenters show why the topic is important with meaningful graphs/tables/statistics. • Presenters' topic is clear and understandable. • Presenters' topic outlines why policy makers need to pay particular attention to this and what they have/have not done in the past regarding this issue.	**5**	
Figures/Tables: • Figures/Tables are clearly labeled and titled, look professional, and convey a clear message. • There is a variety of figures/tables (i.e., not just one type of plot).	**5**	
Data: • Presenters explain each of their data sources and the corresponding reliability. • Presenters give brief explanation of shortcomings. This includes large missing data issues. • Presenters explain their data cleaning process concisely, but clearly.	**5**	
Were you convinced by the presentation?	**5**	
Was the presentation lively?	**5**	

	5	
Did the presentation flow logically?		
Did the presentation feel polished/complete?	5	
Was the analysis of the presentation at a sufficient level for having completed a statistics course?	5	
Does it seem like the students successfully learned how to use R competently this quarter?	5
